

CAYMAN SLE 250

DESCRIPTION

The Cayman SLE 250 is built to reflect an active lifestyle, while offering an array of comfort features. The customization choices start with the option to replace the forward-port lounge with two deluxe captain's chairs and a convenient table with drink holders. Personalize the onboard experience with such amenities as a grill, refrigerator, Berber carpeting, black acrylic or woodgrain tables, an array of flooring options, and five bold fence-panel colors with six accent colors. An all-new Sport Graphic adds style to the look of your pontoon, available in two color selections. With a 6.2 L, 350 HP MerCruiser engine and a performance package as standard equipment, you'll have the power and handling you need to pull skiers and boarders out of the hole and give them a thrilling ride. And, you can elect to incorporate a changing room and a double Bimini top for that requisite downtime after speed runs. So many choices for just one pontoon, and we believe that's as it should be. After all, you're not ordinary. Why should your pontoon be?

SPECIFICATIONS
